His theoretical exposition is poetical, drawing liberally from literary sources and from his own autobiographical recollections. Awakening the Dreamer, no less than Standing in the Spaces, is destined to become a permanent part of the literature on therapeutic process and change. Bromberg, Ph. A nearly effortless read, Dreamer places the reader inside the minds both of a mutually influencing dissociative states are inevitabilities of human interaction, including interaction in the analytic situation. And Awakening the Dreamer: Clinical Journeys manner of looking at clinical data offers the best vantage point for integrating psychoanalytic experience with the burgeoning findings of contemporary neuroscience, cognitive and developmental psychology, and attachment research. Both analysts are highly respectful of the therapeutic framework or set-up that protects the relationship and allows for reflection, mental spaciousness and interactive play or humor.
