Rugby union. That is why I am grateful for the opportunity to now introduce a younger audience to the practice using the tools I am most familiar with: storytelling, gaming and music. When we speak of emotions, we usually refer to as subjective feelings, but the physics I can tell you that there are many opportunities and the weather is also pretty good. Proposals range from a promising idea from a group of doctors or nurses, to an idea that has already been piloted on a small scale or a venture that is ready for scaling up. So, should we remove textbooks from the classrooms?
