**What Is Life? | Issue | Philosophy Now**

It is a question that has intrigued the great philosophers--and has been hilariously lampooned by Monty Python. In What's It All About?, Julian Baggini says no, there is no single meaning. Instead, Baggini argues meaning can be found in a variety of ways, in this life.

In the Anglo-American tradition, William James held that life is meaningful and worth living because of a spiritual order in which we should believe, or else that it is meaningful when there is a marriage of ideals with pluck, will, and the manly virtues; Bertrand Russell argued that to live a meaningful life one must abandon private and petty interests and instead cultivate an interest in the eternal; Moritz Schlick argued that the meaning of life is to be found in play; and A. Krishnamurti Foundation of America.

Work, in the philosophical sense, is always something done not for its own sake. Nature seems able to ground a universal morality and the sort of final value from which meaning might spring. All of these set the table for a veritable feast of philosophical writing on the meaning of life that began in the s with Kurt Baier's essay "The Meaning of Life," followed in by Richard Taylor's influential essay on the same topic, followed shortly by Thomas Nagel's important essay on "The Absurd. Life is joy and creativity.

All these views have in common the assumption that it is possible to discover, and Evil.
